Update

Dear PDX Coin Investor / Community Member,

After a delay of several weeks, the Crypto Specialist Exchange (www.cryptospecialistexchange.com) has finally launched today, with a beta version that will shortly be upgraded to a more dynamic and easier-to-use interface. PDX Coin is a featured asset on this exchange. Over the next week or two, more features will be added to the exchange platform and its appearance, as well as its functionality, will improve.

PDX Coin is currently being quoted on the exchange with limited initial trades at just under \$17.00 per token. We expect trading depth, and liquidity, to build over the next several weeks, as a variety of marketing initiatives from both the exchange as well as our own efforts kick in.

This exchange platform is a *decentralized* one, which makes it safer but at the same time slightly more difficult for the average person to use. The current log-on requires the user to also download the Metamask app via the exchange, and connect it, in order to fully access the exchange's features, and trade.

Further listings with major Asian and European exchanges will commence after we close the 2020 global ICO.

In the meantime, we are also executing an agreement with New York-based FMW Media Inc, in the next couple of days in relation to a series of TV shows and interviews featuring PDX Coin, commencing in October, and which will be broadcast via Fox Business News, Bloomberg, internationally, Univision and Azteca throughout Latin America, etc.

These broadcasts have a combined actual viewership of more than 12 million investors, weekly. We expect to gain strong and widespread exposure for PDX through this outlet, and the broadcasts will also feed into our upcoming series of Asian roadshow investor presentations, the first of which we presently anticipate to stage from October 28th 'til November 10th in 8 key Asian cities: Tokyo, Seoul, Singapore, Hong Kong, Beijing, Shanghai, Shenzhen, and Hangzhou.

We will shortly have a more general operational update, including updates regarding our Electronic Money Institution license application in Europe, and in relation to our ongoing discussions in New York with a technology firm that will enable PDX to seamlessly integrate with tens of thousands of merchants globally, and be as easy to use as a Visa card is today.

Our team is available by email to answer any questions, and provide more detail regarding any aspect of the overall program and what we are doing. Inquiries should be directed to ir@signalcapitalmanagement.co, or to info@signalcapitalmanagement.co .

Sincerely,

Shane Rodgers
